## Career Objective

---

Aspiring frontend developer with a strong foundation in building responsive web applications. Skilled in HTML, CSS, Tailwind CSS, React, and JavaScript. Seeking an entry-level role to contribute to scalable and efficient web solutions.

## Technical Skills

---

|                        |                                       |
|------------------------|---------------------------------------|
| Programming Languages  | JavaScript, Java, Python              |
| Web Technologies       | HTML, CSS                             |
| Database               | MySQL, MongoDB                        |
| Frameworks & Libraries | React, Tailwind CSS, Redux, Bootstrap |
| Tools                  | Git, GitHub, VS Code, Figma           |

## Projects

---

### Cryptoplace - Crypto Tracker App

[Repo](#) | [Live Demo](#)

**Technologies:** React.js | JavaScript | HTML5 & CSS3 | Tailwind CSS

- Built a React-based web app to fetch real-time cryptocurrency data using CoinGecko API and implemented search, filtering, and live display of price, market cap, and 24-hour changes
- Implemented features like dynamic search, currency-based filtering, and state management using React hooks and Context API

### FoodHub - Food Ordering WebApp

[Repo](#) | [Live Demo](#)

**Technologies:** React.js | JavaScript | HTML | Tailwind CSS

- Designed and developed a responsive Food Ordering Web Application allowing users to explore menus, add items to cart, and place orders efficiently
- Engineered an interactive UI using React with modular components for food display, cart management
- Implemented optimized JavaScript logic for real-time cart updates and dynamic price calculation to enhance performance and user experience

### Spotify - Clone

[Repo](#) | [Live Demo](#)

**Technologies:** React.js | JavaScript | HTML | Tailwind CSS

- Built a Spotify-inspired music streaming web app using React with a responsive and user-friendly interface
- Implemented features like playlist browsing, music playback (play/pause/skip), and dynamic navigation using React components and routing

## Education

---

### B.TECH. Computer Science and Business Systems

2021 - 2025

*KGiSL Institute of Technology*

*CGPA: 8.13*

### Higher Secondary Education(12th)

2021

*ELSIE Matriculation Higher Secondary School*

*92.6%*

## Certifications

---

- Certified in Junior Software Developer – TN Skill Corporation
- Certified in Web Development Fundamentals – IBM SkillsBuild
- Certified in Foundations of User Experience(UX) Design – Coursera
